

MAINTENANCE

Mechatronics Engineer/ Electrician/ Electronics Technician (m/f/d)

Full-Time, Föritztal, Germany

Are you a mechatronics engineer or electrician, or do you have a similar qualification? Excellent! We're looking for a specialist like you to keep our production systems and robots running. Does this fit your profile? Then we would like to welcome you!

Tasks and responsibilities of our electrical professionals

- Maintenance and servicing of production systems
- Troubleshooting control systems, drive systems and robots
- Collaboration on internal and external projects in the areas of building management and operating technology
- Documentation/control and updating of circuit diagrams
- Commissioning of mechatronic systems

Expertise & Qualities

- Completed apprenticeship as an electrician, mechatronics engineer or in a related profession, ideally with professional experience
- Reliability and independent working style
- Sound knowledge of pneumatics and hydraulics
- Basic knowledge of PLC desirable
- Sense of responsibility and flexibility
- Confident handling of drawings, circuit diagrams and assembly instructions
